

Dear Friends,

I am proud to have earned the endorsement of the Michigan Education Association for my re-election to Chair of the Michigan Democratic Party.

The support of the MEA and the hard-working men and women they represent means a lot to me. The education community has been under attack during Governor Snyder's administration. I have worked closely with the MEA in the past and will continue to do so, fighting back against the GOP's attempts to dismantle public education and slash the salaries and benefits of those in the education community.

In addition to earning the support of the MEA, I am also happy to announce the endorsements of **44 local Democratic Party Chairs** to a growing list of supporters. These Democratic leaders are the foundation of our Party and have helped the MDP grow and succeed. The list of Chair endorsements is below.

Sincerely,

Mark Brewer
